13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

****NOTE: See attached Spill Cleanup Report from condensate spill on above referenced well as per prior Form 3160-5 Notification.**

This report is to notify the BLM of the completion of all onsite excavations and clean fill soil replacements of condensate contaminated soils and full site restoration of the wellsite and tank battery areas. As approved by BLM and NMOCD Personnel, four (4) Bio-Pile Remediation areas have been created and are being utilized to Bio-remediate the contaminated soils. Envirotech personnel will oversee and supervise the monthly remediation of all four (4) bio-piles until all contamination is within approved Federal and State guidelines. Monthly Sundry Reports will be filed to keep the BLM and NMOCD informed as to the progress and activities of the Bio-Piles remediation.
