	<input type="checkbox"/> Convert to Injection	<input type="checkbox"/> Plug Back	<input type="checkbox"/> Water Disposal	

13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplate horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

BIYA Operators, Inc. respectfully requests permission to set a tank battery at the HGU 209 oil well. This proposed tank battery will eliminate long flow lines to existing tank battery at the HGU 185. This tank battery will be built per our SPCC requirements and we will use BMP. We will lay a layer of base at the site lay down a 30 mil liner on the base. A layer of gravel will be laid on top of the liner. We will set one 300 bbl tanks. An earthen containment berm will be built around the tanks and the berm will be built to hold 125% of the volume of a 300 bbl tank.
