Re: 2018 Bradenhead Test  
Well: Kline 10 #4, UL J Sec 10 Twn 31N Rge 13W, API # 30-045-33545

Dear Mr. Whitham

The 2018 Bradenhead test on the above well indicates a failure. In order to comply with Rule 19.15.16.11, prevent waste and protect fresh water, you are hereby directed to submit a plan of action before **July 8, 2018**, and to initiate remedial activity before **September 7, 2018**. The initial Surface Casing pressure was 45psi of gas pressure.

Gas analysis and wellbore schematic have been received. Gas analysis appears to show similar gas on bradenhead and the production casing.
