13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 19.15.7.14 NMAC. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

It is intended to remove the packer on the dual well and comingling the production from the Blanco Mesaverde (pool 72319) and the Basin Dakota (pool 71599). The production will be comingling per Oil Conservation Division Order Number 11363. Allocation and methodology will be provided after the well is completed. Comingling will not reduce the value of the production. The Bureau of Land Management has been notified in writing of this application.

Proposed perforations are: MV: 4398' - 5081'; DK: 6868' - 7274'. These perforations are in TVD.

Notification of the intent to comingling the subject well was sent to all interest owners via certified mail on 8/29/2018. No objections were received.
