Re: 2018 Bradenhead Test  
Well: J E Decker #1A, UL P Sec 7 Twn 32N Rge 11W, API # 30-045-23080

Dear Mr. Hendrix:

The 2018 Bradenhead test on the above well indicates a failure. In order to comply with Rule 19.15.16.11, prevent waste and protect fresh water, you are hereby directed to submit a plan of action before **November 30, 2018**, and to initiate remedial activity before **January 30, 2019**. Initial Surface Casing psi was 101. Initial Production Casing psi was 101. Five minute shut in pressure on Surface Casing was 2.

The gas analysis from 2017 indicates the bradenhead and production casing gas to be similar. The wellbore schematic has been received in 2017.

**Reference: RBDMS MPK1830334123 on future correspondence for this issue.**

**Notify the Aztec OCD 24 hours before work is initiated.**

If you have any questions, please call me at 505-334-6178, ext. 123.

Sincerely yours,

Monica Kuehling  
Deputy Oil and Gas Inspector  
District III - Aztec
