13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

The Mudge B 1 well was plugged and abandoned on 5/26/1999 and underwent full reclamation work. On August 30, 2017 Randy McKee, BLM and Sabre Beebe, BP visited site for the purpose of obtaining BLM approval of the re-contour work performed. Mr. McKee concurred that the location met all BLM reclamation requirements.

Should you have any questions or concerns regarding this well please contact Sabre Beebe at 970-779-9398 or sabre.beebe@bpx.com
