Hilcorp Energy requests the status on the above well to be updated to Active and removed from the ACOI list. It was on the previous Operator, XTO Energy's 2017 ACOI list for an unknown reason. It was then carried over to Hilcorp Energy's ACOI list.

Through record and production review, it has been determined the well has been producing and in Active status since February 2012, when XTO Energy returned it to production. It has not had a lapse in production for more than 90-days since then.
