13. Describe Proposed or Completed Operations (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once Testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

EPIC Energy will perform an investigation of pressures on Bradenhead prior to remediation in reference to cMPK1915554361

Re: 2019 Bradenhead Test
Well: Byrd 23 #6, UL H Sec 23 Twn 24N Rge 7W, API # 30-039-25531

Dear Mr. Andrews:

The 2019 Bradenhead test on the above well indicates a failure. In order to comply with Rule 19.15.16.11, prevent waste and protect fresh water, you are hereby directed to submit a plan of action before **July 5, 2019**, and initiate remedial activity before **September 5, 2019**. The initial Surface Casing psi was 100. The initial Production Casing psi was 104. The five-minute Surface Casing shut in pressure was 32. The production casing pressure fell while bradenhead was open indicating there is direct communication between bradenhead and production casing.

Gas analysis and wellbore schematic have not been received. However, samples were shown to be taken on May 1, 2019, on test date. Those results from those samples will need to be submitted as soon as possible.

Reference: cMPK1915554361 on future correspondence for this issue.

Notify the Aztec OCD 24 hours before work is initiated.

If you have any questions, please call me at 505-334-6178, ext. 123.

Sincerely yours,

Monica Kuehling
Deputy Oil and Gas Inspector
