13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplate horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recomplate in a new interval, a Form 3160-4 must be filed once Testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

AP

Bottom hole location has been reported incorrectly as Unit Letter H on majority of historical subsequent documents in the wellfile. The correct BHL is in Unit Letter F as seen above. Previous operator - Burlington Resources never drilled out remaining permitted lateral section therefore the BHL didn't reach into Unit Letter H.
