OTHER: ☐

13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 1103. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

Four Star Oil and Gas requests permission to deepen the subject well while performing a workover to recomplete to the fruitland coal And downhole with the Blanco Pictured Cliffs. This procedure was previously approved in a Sundry Notice filed 3/30/04 and approved 04/05/04. Four Star requests to deepen the well from the plug back TD at 2557' to 2600' which will be even with the casing shoe.

The extra depth will allow the pump to be set lower, and more even with the lower perms, keeping them clear. Moreover, the additional depth will allow debris from the formations to settle below the pump, keeping it clear and reduce the need to pull the pump for servicing.

The additional depth will not be produced.

DHC 1457 AZ

I hereby certify that the information above is true and complete to the best of my knowledge and belief. I further certify that any pit or below-grade tank has been/will be constructed or closed according to NMOC guidelines ☐, a general permit ☐ or an (attached) alternative OCD-approved plan ☐.
