Hello Al,

Here attached is a copy of the pressure chart run by Joe Holladay on this well about 11am on January 27, 2018.

I was on location and enjoyed the day and talking with Joe. I meant to take pictures.  
Would you send me a couple of pictures of this well head from different angles?

I entered the MIT into our database.

Thanks Much,  
Will

Could you start around noon or 1pm so I could make it?  
Or is that messing up other schedules?

Mr. Jones

Joe Holladay will be performing the MIT on this well THIS SATURDAY 1/27 . We will have a recorder on the truck and a separate recorder on the well.

We will use the same procedure as in the past, 600 psi - 30 minutes. ( looked over the last MIT 2015 which was witnessed by you )
