13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.

The original APD was submitted on 04/14/2005 and approval was granted on 06/27/05.

The CTD Unit has a slightly different BOP configuration from our conventional drilling rigs. Instead of the 11" x 3,000 psi blind ram & annular configuration; the CTD is equipped with an 11" x 5,000 psi blind/shear ram & annular stack. Because we are drilling into the underpressured Coal & PC, we would like to limit our test pressures to 250 psi/ 750 psi. Please see the attached schematic from Knight Oil Tool rentals.
