(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this zone.)\*

Mallon Oil company request a one year extension for TA status on this well. The last production interval test was the lower San Jose which proved to be 'wet'. Presently we are evaluating the upper San Jose in that area of the field. On completion of this evaluation it will be determined to recomplete the upper San Jose or abandon the well.

14. I hereby certify that the foregoing is true and correct

Mexico  
Mexico got  
a Blm approval.  
We'll just put this  
in well files.
