13. Describe Proposed or Completed Operation (clearly state all pertinent details including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths or pertinent markers and sands. Attach the Bond under which the work will be performed or provide the Bond No. on file with the BLM/ BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in anew interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notice shall be filed only after all requirements, including reclamantion, have been completed, and the operator has determined that the site is ready for final inspection.)

Devon Energy proposes to perform the following work on the subject well:

MIRU service unit

Remove rod string and production tubing

Remove uncemented production liner and tag for fill.

If any clean out work is necessary, we will flow into a flowback tank.

Reinstall production tubing and rod string

Produce well from the openhole interval

A daylight rig package will be utilized and time to complete job is estimated at 3 days
