Re: Sundry Notice Forms

Saladita State #1 30-031-21067
SW/4SW/4 Sec. 36, T18N, R5W, NMPM,
McKinley County, New Mexico
New Mexico State Lease No. VO-7480

Dear Mr. Perrin,

After returning from the meeting last Thursday, June first, I checked on the Sundry Notices that you asked about at that meeting. Our file contained the enclosed letter of transmittal, C103 Form reporting the spudding of Saladita State #1 and picture of the lined and fenced pits that was taken on March 16th. Therefore, since the Aztec District office does not have that C103 in its well file, three (3) copies of that initial C103 were made and are enclosed.

C103 Forms reporting the casing and cementing of the surface and intermediate casing were not found, so those forms have been reproduced and three (3) copies of the Sundry Notice for the surface casing and three (3) copies of the Sundry Notice for the intermediate casing are enclosed.

In the future, should the Sundry Notices be directed to someone's attention? If so, please let us know who that should be so that the C103's can be mailed to the proper person.

Sincerely,

John Somers
Petroleum Engineer
High Plains Petroleum
