13. Describe Proposed or Completed Operations (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once Testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

The above referenced well has passed an MIT test. We are intending to evaluate the uphole potential. Due to other obligation from the OCD and BLM this well was put at the bottom of the list. We would like to request a 120 day extension to get a rig on the location and evaluate the potential. We currently have completion rigs in the area.

THIS APPROVAL EXPIRES 11/8/06

14. I hereby certify that the foregoing is true and correct
