RE: Permit to Down-hole Commingle
Rosa Unit #159 30-039-25583
SW/4 SE/4 Sec. 19, T31N, R5W
Rio Arriba County, New Mexico

Ladies and Gentlemen,

In accordance with the New Mexico Oil Conservation Division Rule 303 governing down hole commingling, you are hereby notified that Williams Production Company, LLC, as operator of the referenced well, intends to down-hole commingle production from the Blanco Mesaverde and Basin Dakota pools. These pools are pre-approved for commingling by the State of New Mexico Oil Conservation Division (NMOCD) of the Energy, Minerals and Natural Resources Department. As such Williams Production Company, LLC is required to submit application to the NMOCD of our intent to commingle the two zones.

The lease on which this well is located is owned by the United States of America and is committed to the Rosa Unit I sec. No.587. This well is interior to the Rosa Unit Boundaries. The Mesaverde Participating Area Owners own the Mesaverde production; the Dakota Participating Area Owners own the Dakota production.

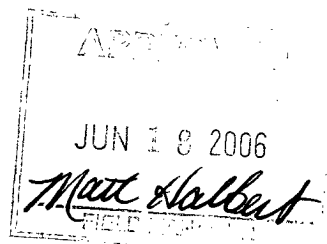

The attached engineering documentation outlines the allocation method and provides the pertinent data supporting our application to commingle this well.

Any objections to the application must be filed with NMOCD within 20 days of receipt of this letter and supporting documentation

Sincerely,

M. Vern Hansen
Staff Landman
