13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplate horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

ON MAY 5th 2006 Service Company entered the Jake Jones #3 to examine the tubing and sucker rods (see attached) Removed tubing, Sucker rods, and downhole pump. new downhole pump was needed and tubing replaced where necessary. Have talked to Enterprise about meter run and meter repair and compressor is still on order GILBREATH still desires to recover the well as it shows pressure AT WELLHEAD when worked with and could be a recoverable well by October 1, 2006.
