Dear Ms. Garcia:

The subject Fruitland Coal replacement well is currently in the permitting process. We would like for you to continue the permitting process, even though the original well, located in the same $\frac{1}{4}$ $\frac{1}{4}$ section, is currently being produced. We plan to plug the original well prior to producing the replacement well.

If you have any questions or need more information, please contact me at 505-566-4680.

Sincerely,

Charlie Donahue
