| 5 minutes  | 0          | NA           | 48     | Steady Flow     |            | NA           |
| 10 minutes |            |              |        | Surges          |            | NA           |
| 15 minutes |            |              |        | Down to Nothing |            | NA           |
| 20 minutes |            |              |        | Nothing         | Nothing    | NA           |
| 25 minutes |            |              |        | Gas             |            | NA           |
| 30 minutes |            |              |        | Gas & Water     |            | NA           |
|            |            |              |        | Water           |            | NA           |

If bradenhead flowed water, check all of the descriptions that apply below:

CLEAR \_\_\_\_\_ FRESH \_\_\_\_\_ SALTY \_\_\_\_\_ SULFUR \_\_\_\_\_ BLACK \_\_\_\_\_

5 MINUTE SHUT-IN

BRADENHEAD 0 INTERMEDIATE NA

#### REMARKS:

This is a pumping well. The tub psi is higher than the csg because we are using a Baid valve to hold back press on pump. BH is plumped above ground with 3/4" pipe BH valve has been closed forever I guess.
