13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomple horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recomple in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.

BP America requested permission to plug and abandon the subject well 8/15/06. Approval was granted 8/20/06.

Above mentioned well is a compliance well. Due to unforeseen problems in the wellbore (see addition subsequent sundry) BP respectfully request permission to delay the plugging & abandonment of said well until January or February 2007.

BP America request permission to perform injection testing to determine if we can circulate drilling mud around to kill the well. If the testing is successful, we will submit a procedure to circulate drilling mud; kill the well and then go about the P&A of the wellbore. If the test is not successful we may need to submit another procedure and P&A the well with coil tubing.
