13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleate horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleation in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the final site is ready for final inspection.)

When landing the proposed horizontal in the Fruitland Coal it was determined that there was not a suitable coal seam at that depth. The hole was open hole sidetracked to the top of the PC and no additional coal sections were found. The open hole will be plugged to the intermediate casing shoe @ 1982' MD with a 350' cement plug and a whipstock will be set at 1950' MD to drill horizontally into a seam found at 1857' TVD. John Egelston spoke to Steve Mason w/BLM and rec'd verbal approval on 11/8/06.

14. I hereby certify that the foregoing is true and correct
