13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Chevron Midcontinent, LP respectfully requests a 1 Yr Extension for the already approved NOI to Recomplete & DHC the Mesaverde and Dakota zones (Approved 7/02/2004) for this well. This request is principally due to the recent Change of Operator and associated personnel changes resulting in delays to AFE, WIO and other necessary approvals as well as workover rig schedules.

Your approval of this 1 Year Extension, or until July 02, 2007, to the approved Re-completion NOI will be greatly appreciated and allow us the opportunity to continue our Re-completion and DHC plans for this well. We currently anticipate early to mid year 2007 startup on this work.

(The Original NOI was filed under the Operator Name of Pure Resources, L.P. This well was included in the approved well transfer lists (NMOCD C-145's and/or BLM Bond # NM 2881) associated with the Change of Operators from Pure Resources, L.P. to Chevron Midcontinent, L.P.)

Approved extended until July 2, 2007
