13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

To facilitate production capabilities for this well, Chevron Midcontinent, L.P. respectfully requests permission to install a 118 HP Cummins G8.3/LeRoi HG 12237HFE Rotary Screw Compressor which meets current New Mexico NOI Permit requirements. This will be a new installation on the existing well pad and thus no new "disturbances" are anticipated. We propose to make this installation on or about mid-December, 2006.
