Well Record Only

13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomple horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recomple in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all operations, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.

BP America owns and maintains a gas line that runs from the GCU 335 to the GCU 259 SWD. This line is a 465.51', 2" diameter natural gas line that transports gas from the GCU 335 to be used as fuel gas for the generator located at the GCU 259 SWD well site.

These wells are located inside the Gallegos Canyon Unit on Navajo Nation land. BP respectfully request permission to bury said line 3' below ground surface. Please see attached Survey Plat and supporting documentation.
