The above referenced well has been returned to production. The well is pumping under a packer to isolate the casing problems up hole. Elm Ridge Exploration proposes to produce this well in order to hold the lease. We are currently submitting an APD for the South Blanco Federal 22 #5 to be drilled this spring. Upon completion of the South Blanco Federal 22 #5, the South Blanco Federal 22 #2 will be plugged and abandoned. The South Blanco Coal 22 #1, also on this lease is not capable of production and will be plugged and abandoned upon approval of the procedure.
