13. Describe Proposed or Completed Operations

Change in well plan- alteration of casing.

2/5/07 7" casing run for surface, & on 2/8/07 4.5" casing was run for production. APD approved for 9 5/8" surface & 5.5" production.

For a standard UPE well, which includes the Day B 17, there is no advantage of running 5.5" production casing. This well will be produced by plunger lift, therefore, it is more economical to drill for, and run 4.5" casing. As part of the transition of merging the two companies (ConocoPhillips/Burlington Resources) a decision was made to use 5.5" casing only in special cases, 4.5" is our standard for a UPE well.

2/13/07 Steve Mason (BLM) was notified on 2/13/07 by Frank Fernandez (Drilling Engineer).
