13. Describe Proposed or Completed Operations (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplate horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

SG Interests is requesting an extension for APD approval pertaining to this well (due to expire 3/7/07). The well has not been drilled. SG is waiting for a ROW approval from BLM to construct and activate a gathering system to evaluate other Fruitland wells drilled and completed in 2006 (we anticipate the gathering system to be in operation by Spring, 2007). Pending evaluation of these wells, SG wants the option to drill the subject well if economically warranted. No changes have been made in the drilling/completion plan. No changes have occurred in the land status.

APD will expire 3/7/2008
