3. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

The initial APD to drill a Pictured Cliff (PC) well was approved on July 28, 2006. The well was given API number 30-039-29461. The initial pipeline route followed the access route that is heading southwest, which as it stands there is no existing gathering line to tie in to. Base on the on-site, held on October 6, 2004, the pipeline was to be redirected north to an existing gathering line. Black Hills Gas Resources (BHGR) is submitting an updated pipeline route and EA to reflect the changes to the pipeline route. The access road will remain as submitted in the approved APD.
