13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

Approval from the BLM is requested to remediate the surface location. Approximately 7 to 8 bbls. of oil spilled when a valve froze at the separator. The spilled oil was contained within the firewall and was picked up by a vac. truck the same day the spill was found, which was on January 9, 2007. The contaminated soil, estimated at 5 to 10 cubic yards, will be excavated and then properly disposed of at an off-site disposal.

14. I hereby certify that the foregoing is true and correct.
