13. Describe Proposed or Completed Operations

ConocoPhillips requests the following change in drilling:

The intermediate casing depth was approved to be set at 3834'. We would like to top set the intermediate casing above the high rate Coal seam. This will change the intermediate depth TD to 3134'. This will allow us to avoid drilling with fluid in the high rate Coals where we would likely lose circulation, we will then mist drill to a TD of 5994'.
