SUBSEQUENT REPORT OF:

REMEDIAL WORK ☐ ALTERING CASING ☐

COMMENCE DRILLING OPNS. ☐ PLUG AND ABANDONMENT ☐

CASING TEST AND CEMENT JOB ☐

OTHER: ☐

13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 1103. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

XTO Energy Inc. is requesting approval for an exception to NMOCD Rule 303-C to permit DHC of production from the Basin Dakota (71599) & Angel Peak Gallup (02170) in the CA McAdams D #2G. XTO Energy, Inc. proposes to downhole commingle these pools upon completion of this well. Allocations will be based upon the production from the Federal H #1F once production has been established for that well. Both pools are included in the NMOCD pre-approved pool combinations for DHC in the San Juan Basin. Interests are diverse & notification was given to owners on May 25, 2007 by certified, return receipt mail. The ELM has been notified of our intent by submission of a 3160-4. DHC will offer an economical method of production while protecting against reservoir damage, waste of reserves & violation of correlative rights.

I hereby certify that the information above is true and complete to the best of my knowledge and belief. I further certify that any pit or below-grade tank has been/will be constructed or closed according to NMOCD guidelines ☐ , a general permit ☐ or an (attached) alternative OCD-approved plan ☐
