13. Describe Proposed or Completed Operation (clearly state all pertinent details including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths or pertinent markers and sands. Attach the Bond under which the work will be performed or provide the Bond No. on file with the BLM/ BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notice shall be filed only after all requirements, including reclamantion, have been completed, and the operator has determined that the site is ready for final inspection.)

Per the NMOCD rules and regulations, Patina San Juan is requesting an extension to the submission of the mandatory packer leakage test which was to be completed by May 9, 2007. Due to high pressures, sand and freezing issues, the packer test was not completed by the deadline. The Basin Dakota was turned on for sales on April 26, 2007. The Basin Fruitland Coal is not producing and will be turned for sales upon the completion of the packer test.

Patina is requesting an extension to the submittal of the packer leakage test to June 15, 2007.
