Re: NMSF-081160F (WC)
3162.3-2 (21110)

Dear Stephan:

We are in receipt of your letter dated April 3, 2007, regarding well No. 19 San Luis Federal.

Earlier this month we received verbal notice from NM OCD that they are unable to locate the required completion documents for this well and that we are not permitted to produce it until such time as the documents are provided. We are not producing it under their order. We are attempting to locate the records and or logs to provide them the information required. This well was the last project Mr. Reynolds completed before his health limited his activities and ultimately his death. The records appear to be scattered and some parts are even missing. We will continue to locate and organize the information to meet their requirements. The time it will take is impossible to estimate today, or even this week. We will work on it and keep you advised.

Sincerely,

Wm. R. Reed

WRR/s
