It is intended to remove the packer and commingle the subject well in the Basin Dakota (Pool Code 71599) and Blanco Mesaverde (Pool Code 72319). The production will be commingled according to Oil Conservation Division Order Number 11363. The allocation for this well will be determined at the time of the workover. A separator test will be performed and the allocation will be submitted with the detail subsequent report. Commingling will not reduce the value of production. The Bureau of Land Management Office has been notified in writing of this application.

Interest owners in both zones are common the two zones, so no notification is necessary.
