DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudlogging jobs, cementing points, and all other important proposed work)

The well has been plugged with 300 sacks of cement as designated by your office. A regulation marker has been installed. The cellar pits and surrounding area have been cleaned up.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
