13. Describe Proposed or Completed Operations (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplate horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once Testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Running Horse, LLC. plugged this well as follows: Laid down the 5/8" rods and pump and 1-1/2" IJ tubing. Established an injection rate into the perms with 7 bbls of fresh water. Pumped 35 sx (41 cu.ft.) of Type 5 cement with 1/4 #/sk celloflake and 2% CaCl2. Dropped 44 ball sealers in the first 2 bbls of cement. Filled the 2-7/8" tubing with cement and pressured cement to 800 psi - pressure was holding. Removed the wellhead and topped off the 2-7/8" tubing with cement. The hole was staying full. Job was witnessed by the BLM. Installed the P&A marker and cleaned up the location.
