(Note Report results of multiple completion on Well Completion or Recompletion Report and Log form )

13 Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work ) \*

This well was initially proposed as a development well in the Basin Dakota gas and South Bisti Gallup oil pools. The S/2, 320 Acre Dakota spacing unit required communitizing lease NOG-0502-1714 with lease NOG-8505-1062. The Dakota formation was perforated, acidized and swab tested, producing water and no gas. The Dakota was abandoned on 1-12-07 and the South Bisti Gallup completed on 1-22-07. The 80 Acre W/2 of SE/4 Gallup spacing unit consists only of lease NOG-0502-1714 and did not require communitization.

Initial well name - Werito Com No. 1(35956)  
New well name - Werito No. 1(36611)
