REMARKS:
MMP-37 - mowed hills and
filled low drained bog marsh
hole 2:30

This image shows a blank, aged, cream-colored page, likely an endpaper or flyleaf from an old book. The paper has a slightly textured appearance with some minor discoloration and small dark spots, possibly foxing or dust. A prominent vertical crease runs down the center of the page, and a horizontal fold is visible near the top edge. In the upper left corner, there is a faint, illegible stamp or mark. The overall tone is warm and vintage.

A vertical rectangular sheet of white paper featuring a light gray grid pattern. The grid consists of small squares, approximately 10 units wide by 60 units high. A single horizontal line runs across the middle of the page, dividing it into two equal halves. There are some faint, dark smudges or marks near the bottom left corner, possibly from a pen or pencil.

The image is a vertical strip of a document page, heavily degraded with noise and artifacts. It shows fragments of text and a table structure. The text is mostly illegible due to the noise, but some words like "TABLE" and "TABLE" are visible. The table structure is also partially visible, with columns and rows, but the data is mostly obscured by noise.
