13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomple horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recomple in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

On 7/10/07 we began work to deepen this well. After several unsuccessful attempts to pull 5 1/2" liner, the decision was made to not deepen well. We did cleanout wellbore to 3432', ran new string of tubing (set @ 3429'), and rod string. 7" casing remains @ 3233', and 5 1/2" liner remains top @ 3210', bottom @ 3436'. Well was returned to production on 7/18/07.
