☐ Water Disposal

☐ Water Shut-Off

☐ Well Integrity

☒ Other

Extend Pit Closure

Date

13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the final site is ready for final inspection.)

ConocoPhillips is requesting a 90 day extension on closing the drill/workover pit for this well. The well was initially underreamed and openhole completed. The completion rig moved off 6/4/03 and the well was first delivered 6/17/03.

In an attempt to increase production we returned to this well on 8/12/03. We are using the standard cavitation/surging method and the pit is still needed for flowback. The initial 90 days will expire 9/4/03 and we would like to extend it's use another 90 days.

Charlie should we file this?
YES
P
