13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleate horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No on file with BLM/BIA Required subsequent reports shall be filed within 30 days following completion of the involved operations If the operation results in a multiple completion or recompleation in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection

On 8/07/2007 BP requested permission to T&A the MV & PC portion of said well; perforate the Chacra sand and produce Chacra for a period of time. Approval was granted 8/13/07. This work is expected to commence 9/23/07. BP America respectfully requests to Tri-Mingle the above mentioned well with the existing Blanco Mesaverde & Basin Dakota as per the attached procedure.

The working interest, royalty and overriding royalty interest owners in the subject wells are different therefore notification is required (sent certified return receipt 8/23/07).

Production is proposed to be allocated based on the subtraction method using the projected future decline for production from both the Dakota & Mesaverde. That production shall serve as a base for production subtracted from the total production for the commingled well. The balance of the production will be attributed to the Chacra. Attached is the future production decline estimates for the DK & MV.

Pre Approved Pools by order R-11363: Blanco-Mesaverde (72319), Blanco Pictured Cliffs (72359) & Otero-Chacra (82329) Pools. Form C-107A is being submitted (copy attached) to NMOCD (Santa Fe) for their approval.

Commingling Production Downhole in the subject well from the proposed Pools will not reduce the value of the total remaining production.

(Chacra plat previously filed)
