(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Amoco Production Company intends to re-dedicate the subject wells spacing for the Dakota formation from a 320 E/2 standup to a 320 acre N/2 lay down.

Amoco Production Company intends to change the name of the subject well to:
Florance 62E for the Dakota formation (because of the change in the dedicated spacing)
Florance D LS 4R for the Mesaverde formation

From the Florance 68E
