Dear Mr. Goad,

The location of your #8 Gola well in Sec 4, -T17N- R3W is non-standard as it is only 130 feet from the 40 acre line and the rule in this pool specifies 150 feet. If production is secured at this location you will be required to go to a hearing for approval of the location prior to production. I thought you might prefer to move it prior to drilling.

Very truly yours,

  
Emery C. Arnold  
Supervisor, District III
