13 Describe Proposed or Completed Operation (clearly state all pertinent details including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths or pertinent markers and sands. Attach the Bond under which the work will performed or provide the Bond No. on file with the BLM/ BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notice shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Chevron MidContinent, L.P. respectfully request a six month APD extension on the above mention location. Due to our drilling schedule and difficulties with drilling, we will most likely not have this well drilled by its current expiration date of October 19, 2007, but plan on having it drilled shortly after. We prefer the six month extension to allow us time to compensate for the winter weather that could effect us in the Rincon area. Should you have any questions or require any additional information, please feel free to contact us at anytime.

Extension until 4/19/08
