13. Describe Proposed or Completed Operation (clearly state all pertinent details including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleate horizontally, give subsurface locations and measured and true vertical depths or pertinent markers and sands. Attach the Bond under which the work will performed or provide the Bond No. on file with the BLM/ BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleation in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notice shall be filed only after all requirements, including reclamantion, have been completed, and the operator has determined that the site is ready for final inspection.)

Black Hills Gas Resources intends to place a temporary four inch poly water line on the ground from the existing Jicarilla 458-08 #15 to the Jicarilla 458-08 #13. The purpose of the laying of the water line temporarily on the ground is to use the produced water from the Jicarilla 458- 08 #15 well for drilling activities, instead of hauling water to the location. After the well is completed the water line will be buried in the same trench as the gas line and plumbed into BHGRs existing water gathering system.
