- 13 Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.

The original drilling permit for the above mentioned well was submitted on 08/02/04 and approved 08/19/04. BP America requested an extension April 2005 and approval was granted until Aug. 19, 2006.

The drilling location is built and El Paso (Enterprise) has a riser on the location. BP respectfully requests permission to extend or renew (which ever the case may be) the APD. Our drilling program will resume 2008 and we do not want to loose this prepared location.

This approval expires 08-19-08
