	(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

13. Describe Proposed or Completed Operations (Clearly state all pertinent dates, including estimated date of starting any proposed well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to the

Plans are to install a verticle cathodic ground bed within the limits of of Blackwood & Nichols existing pipeline right-of-way, (Serial No. NM 76260). The ground bed will be near the Sims Mesa CPD Site located in the NENE, Section 22, T30N-R7W as shown on the attached map. The purpose of the ground bed is to provide cathodic protection for the NEBU 466 well casing as well as the pipelines associated with the CPD Site. The ground bed will be drilled within the previously disturbed pipeline right-of-way with a small truck mounted rig. A pit will not be required for the drilling of this ground bed. This project will be located on Bureau of Land Management lands.
