Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the final site is ready for final inspection.)

XTO Energy, Inc. requests approval for an exception to NMOC Rule 303-C to permit DHC of production from the Otero Chacra & the Blanco S. Pictured Cliffs in the MKL #16R. Allocations are based upon previous production & are calculated as follows:

Pictured Cliffs	Gas: 77%	Water: 100%	Oil: 100%
Otero Chacra	Gas: 23%	Water: 0%	Oil: 0%

Both pools are included in the New Mexico Oil Conservatin Division pre-approved pool combinations for downhole commingling in the San Juan Basin. Interest owners are common; therefore, notification of owners was not necessary. The NMOC has been notified of our intent by submission of a C-103. Downhole commingling will offer an economical method of production while protecting against reservoir damage, waste of reserves & violation of correlative rights.
