	<input type="checkbox"/> Convert to Injection	<input type="checkbox"/> Plug Back	<input type="checkbox"/> Water Disposal	

13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

XTO Energy Inc. respectfully requests immediate approval for temporary access to the following wells:

Armenta #1 (API 30-045-07850), Albright #20 (API 030-045-27220), Armenta GC C #1A (API 030-045-25671) and Armenta GC G #1 (API 030-045-30932) because of the washout of the existing access road because of the increased flow from the San Juan River. All four wells are located on fee surface, however the access road to the wells crosses Bureau of Land Management (BLM) land jurisdiction in the SW/4NE/4 of Sec. 27-T29N-R10W, San Juan Co., NM.

All four wells contain Federal minerals in their respective spacing units.

Access will be in the form of a two track roadway, approximately 200 feet in length, adjacent to, but a safe distance from the edge of the San Juan River, to allow access for lease operation only. Road will be used by XTO and their contractors and will consist of pickup/work truck/water truck travel to and from the existing above mentioned well locations. No workover access will be allowed at this time.

Per on-site 3-24-2008 with Bill Liess, Paul Lehrman, Tom Dugan, Scott Baxstrom, Chris Bramwell, Bill Papich and Gilbert Armenta.

XTO will follow this sundry with a more permanent plan to access the wells across BLM lands.

All four wells are currently shut-in pending BLM approval of this sundry notice.
